DETAILED ACTION

The argument in the appeal brief is persuasive and the finality of previous rejection is withdrawn. Claims 1 and 3-5 are allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is a ferroelectric memory, comprising:

- An insulation film having a concave portion at a top surface; and
- A laminated body obtained by laminating a plurality of layers on the top surface and etching a region of the plurality of layers corresponding to a region other than the concave portion, where
- The laminated body includes a lower electrode layer which is made of a gel dry film and brought into contact with a bottom surface of the concave portion, a ferroelectric layer formed on the lower electrode layer and an upper electrode layer formed on the ferroelectric layer, wherein
- A portion of the lower electrode layer is only embedded in the concave portion, and protrudes outward from an inner peripheral edge forming the concave portion, and a the of said portion of the lower electrode layer, a side of the ferroelectric layer and a side of the upper electrode layer are flush with each other.

The prior art of record does not disclose or suggest either in singly or in combination the following limitations and other elements in the claims:

- References Onishi (US 5,708,284) in combination with Knight et al. (US 4,737,422) do not disclose the laminated body includes a lower electrode layer which is made of a gel dry film and brought into contact with a bottom surface of the concave portion, and a portion of the lower electrode layer is only embedded in the concave portion.

Therefore, the above references do not disclose the claimed invention of present application and claims 1 and 3-5 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
